CONSTELLATION

UNMATCHED RANGE, UNPARALLEL PERFORMANCE

CONSTELLATION 306 G-2/L-2/E-2

Constellation 306 is specially designed to cater to the needs of machines like loader graders and dozers. The tires are built to give superior traction in normal duty construction, agriculture and mining applications. The robust tread pattern makes it suitable for uneven rugged terrains and ensures longer tire life.

Dozer Wheel Loader Grader

CONSTELLATION 318 G-3/L-3/E-3

A value for money tire for loader, dozer and dump trucks, 318 offers various features like excellent ground stability, long duty cycle suitability and excellent traction. More ground contact area and high carcass strength provide long tire life.

CONSTELLATION 533 R-4

533 is an industrial drive tire constructed for non-agricultural applications. The robust diagonal construction with additional number of plies provides excellent ground stability and load carrying capacity which is vital while plying through uneven surfaces (construction sites). Specially designed tread pattern promises high traction with excellent self-cleaning, better braking and high on-road mileage.

CONSTELLATION CST - 201 R-4

The tread pattern provides high traction and comfortable ride on varied terrains. The tire has more number of plies which gives the tire additional strength to carry heavy loads and withstand harsh environments. The strong lugs provide high traction. The solid centre ensures smooth ride with longer life.

Backhoe

CONSTELLATION CST - 903 R-4

A specialized tire developed for Skid Steer application. The open and deep shoulders are designed for traction on loose off-road surfaces. The flatter radius of the tire improves the wear resistance. Solid center lug for improved wear resistance.

Skidsteer

CONSTELLATION 347 R-1

347 is a drive wheel tractor tire with 23° lugs specially designed for hard pull applications. It provides maximum traction on all types of tough soil along with a smooth drive. The tire is engineered with superior compound for protection against punctures.

2WD Tractor MFWA

CONSTELLATION 358 R-1

358 is a tractor drive wheel tire characterized by extra strong lugs for heavy-duty services on medium HP agriculture tractors and implements. Its tread pattern includes special reinforced durable lugs in the lug base area that prevents fatigue cracks. In addition, triple angled lugs enable smooth ride in fields and on road.

2WD Tractor MFWA

CONSTELLATION CST - 540 R-1

CST - 540 has a modern multi-angled lug design which makes it suitable for on & off-road applications. This pattern offers good traction and self-cleaning during field operations and drive comfort during on-road use.

CONSTELLATION CST - 840 R-1

The 23 degree tread offers maximum traction while distinct terracing in the space between the lugs is designed to enhance self-cleaning and provide constant tractionin soft soil and mud. The neutral casing mould design minimizes stresses from the under inflated to the inflated tire, resulting in enhanced long-term reliability.

CONSTELLATION CST-FP303 F-2

CST-FP303 is an aesthetically improved modern F-2 design. It has an optimized rib design suitable for both on and off road applications. The specially designed ribs ensure better roadability. Additional rubber layer under tread provides penetration resistance while improved sidewall deflection on loading ensures better stability

2WD Tractor

CONSTELLATION CST – 100 R-4

Robust Construction makes CST-100 one of the strongest tires. The superior tread pattern with excellent self-cleaning makes CST-100 the most durable and versatile R-4 bias ply tires in the market. The strong lugs are specially constructed to provide longer life even under harsh environments. The reinforced sidewall gives high loadcarrying capacity and safeguards against side damage. The rim shield protector ensures protection against rim damage. It is a heavy-duty tire that gives excellent performance when used for continuous operations.

CONSTELLATION CST – 202 L-4

CST-202 has a unique tread pattern that offers superior tire life even while operating in severe conditions. The deep tread pattern of the tire enhances traction and long life. The presence of the reinforced sidewall of the tire leads to better handling and stability. CST-202 also comes with an enhanced load carrying capacity coupled with better riding comfort.

Backhoe Skidsteer

CONSTELLATION CST – 308 L-2/G-2/E-2

CST-308 is a tire designed for rugged service on front-end loaders. Husky tread bars are sized and angled for maximum traction and specially contoured to resist tearing and chipping. The overlapping lugs ensure smooth rolling on any type of surface and the spacing between lugs provides self-cleaning properties.

Dozer Grader Wheel Loader

CONSTELLATION CST – 323 R-1

CST-323 is designed for tractors, implements, self-propelled harvesting equipment and light industrial/construction applications. It has superior carcass casing and bead construction for better life. The extra deep lug provides good performance under severe working conditions. The specially designed directional tread pattern provides excellent traction and self-cleaning properties.

Telehandler

CONSTELLATION CST – 531 R-1

CST-531 is an agro industrial pattern mainly developed in order to meet the needs of multiple operations performed by industrial vehicles such as telehandlers and Industrial tractors. The tire has a heavy R-1 lug design that combines the toughness of a construction tire with the traction and self-cleaning of a tractor tire. The flat, wide tread, provides excellent stability during vehicle operation.

CONSTELLATION CST – 855 IND1/3

CST-855 is a premium service tire designed to operate in the most demanding applications. Engineered with heavy-duty construction to resist abrasions, punctures, and impacts, as well as a robust tread design that is suited to work in the toughest of applications. The wide, flat tread profile provides excellent stability in forklift applications. Reinforced construction provides good stability required for such industrial operations.
